

Executive Bio BOOT CAMP workshop in WARSAW, PL April 16-20th, 2007

in collaboration with
The Innovation Center FIRE
Centrum Innowacji – FIRE
Building MARS-SA, VIIth floor - Domaniewska 41 str. - WARSAW

The Bioentrepreneur Boot Camp for Executives offers the opportunity for the future Bioentrepreneur to work on his/her own business plan with the support of professionals in the evaluation of Life Sciences investment opportunities and due diligence.

2 main goals :

- *Assessment of the business plan of each participant.*
- *Work with the coach to amend/correct the business plan according to gold standards of the financing of business model chosen by the participant (service, product development, FIPCO...) who should be ready by the end of the boot camp to present to investors.*

Participants bring their Business Plan at the boot camp (under confidentiality agreement) and will work on it to adapt to the expectations of the financial partners.

*A professional coach will review all elements to be covered by a business plan and will support the participant to implement these into his/her new company business plan.
After completing such a boot camp, participants will be ready to present to investors with a very high chance of success.*

Who should attend? Any scientist who :

- Has already attended the Bioentrepreneur Boot Camp for Beginner or a Biobiz workshop
- Has acquired the basics of entrepreneurship in Life Sciences
- comes from a Business school,
- Has followed a University programme in management and economy
- Has already a professional experience
- **Has started to prepare a business plan**

Participants will be selected according to the relevance of their application.

How much does it cost?

Because most of the cost is **supported by the European Commission**, the individual participation fee is reduced to

€100 for citizens from new member's countries and associated countries.

There is no funding to cover travel and accommodation costs.
